DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-3, 11-16, 25-29, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Stone (US 5,551,938).

Stone discloses a method for forming carton blanks comprising advancing a web of paperboard 42 along a path; progressively applying, with an adhesive, at least one ribbon of reinforcing material 38 with a width less than the paperboard substantially overlying a selected panel portion; the paperboard is then cut into individual carton blanks and then are formed into cartons for receiving articles (see figures 1-3). Stone teaches manufacturing a paperboard carton with a reinforcing collar made of "either paperboard, thick paper... or flexible plastic." (column 4, lines 48-49). Therefore

3. Claims 1, 3-5, 7, 9-11, 16, 25, 29-32, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Lang (US 5,147,480).

Lang discloses a method of making paperboard cartons comprising advancing a web of paperboard 48 to a laminator/reinforcer which applies at least one layer of material to the paperboard; see figures 3 and 4. The web is then cut/scored and then formed into cartons. Lang discloses printing on the reinforcing layers.

Art Unit: 3721

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 5. Claims 4-7 and 30-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stone (US 5,551,938) in view of Stokes (US 1,880,288).

Stone does not disclose a plurality of reinforcing ribbons, however Stokes teaches reinforcing carton blanks with ribbons t (see figures 1-1a). It would have been obvious to one of ordinary skill in the art to use the teachings of Stokes in the invention to Stone in order to reinforce more than one side of the carton.

Response to Arguments

6. Applicant's arguments filed 2/2/04 have been fully considered but they are not persuasive. Stone teaches reinforcing substantially all of panel portion 58.

Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The teachings of Anderson '117 are considered relevant.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 703-308-8643. The examiner can normally be reached on Monday-Thursday from 8-6.

Application/Control Number: 09/559,704 Page 4

Art Unit: 3721

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on 703-308-2187. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
